

Statment by NHMC President & CEO Alex Nogales on Lou Dobbs' Resignation

2009-11-12

The National Hispanic Media Coalition (NHMC) and the Latino community congratulate CNN management for directing Lou Dobbs to either return to being a credible journalist or find another home.

Lou Dobbs' editorializing and hate speech-aimed directly at the Latino community-had become an embarrassment to CNN and placed the network's integrity in great question.

Dobbs' continuous misrepresentations and misinformation regarding the Latino community had become a cause of great concern to all people of good will who work day-in and day-out to make this a better nation.

As Dobbs leaves CNN the Latino community will turn its ear toward the radio network that allows and encourages him to continue his shrill hate speech and factual misrepresentations.
